Summary

Self-taught **Full Stack Developer** with a strong track record of delivering high-quality, scalable, and efficient web applications. Skilled in modern technologies including **React.js**, **TypeScript**, **Angular**, **Node.js**, **Express.js**, and **MongoDB**. Passionate about solving complex problems and creating seamless user experiences through clean, maintainable code.

Experience

SRV Infotech Nov 2023 – Present

Full Stack Developer *Kerala/India*

- Developed and maintained web applications, including government platforms such as a university job & internship portal, using the **MERN stack** (**MongoDB**, **Express.js**, **React**, **Node.js**).
- Led full project as **Project Lead**, coordinating cross-functional teams, gathering client requirements, and ensuring on-time delivery of high-quality solutions.
- Implemented **CI/CD pipelines** to streamline deployments and reduce delivery time, integrating **REST APIs** for secure and scalable service communication.
- Optimized large-scale database operations with efficient queries, improving data retrieval speed and system performance.
- Applied best practices in **code optimization**, **security**, and **scalability**, ensuring long-term maintainability of systems.
- Mentored junior developers, provided technical guidance, conducted code reviews, and facilitated client communications for requirement gathering.

Projects

ASAP Career Link | *Full Stack Developer, Project Lead* Live: careerlink.asapkerala.gov.in

- Built and led development of a government-backed job portal for **internships**, **jobs**, and **job fairs**.
- Designed and managed a comprehensive **CRM** for end-to-end operations including job/internship postings, candidate screening tests, and user management for colleges, companies, and candidates.
- Developed a KTU-specific section adopted by **125+ colleges** and used by **14,000+ candidates**.
- Optimized backend workflows to handle high-volume data and ensure seamless coordination between multiple stakeholders.

Additional Skill Acquisition Programme (ASAP) | *Full Stack Developer* Live: csp.asapkerala.gov.in

- Contributed to a Kerala government learning platform, generating **23,000+ leads** in one year.
- Implemented a secure Finance Module with **100% data protection**.
- Integrated **Razorpay**, processing **53M+ transactions**.

Medcity International Academy | *Full Stack Developer, Project Lead*

- Led end-to-end development and operations for Academy, Study Abroad, and Placement divisions, managing **25,000+** leads and **30M+** in payments via **Razorpay** integration.
- Built automated workflows for admissions, visa processing, offer letters, and international job placements.
- Integrated **META** Lead Management system to optimize lead tracking and conversion efficiency.

SMOTPRO | *Full Stack Developer, Project Lead*

- Led development of sales and operations modules across **Documentation**, **Travel**, **Finance**, **Housing**, and **Artistic Services**.
- Built **Documents, Tours** division to manage customer documents (**passport**, **visa**) and track all **legal processing stages**.
- Integrated **Just Dial**, **IVR**, and **Tripcrafters**, boosting leads to **500+/week**, and implemented **PayU** for secure payments.

SRV Infotech | *Full Stack Developer, Project Lead*

- Developed comprehensive **Staff and Project Tracking Software** for SRV Productions and SRV Infotech, managing over **500+ clients** and **650+ projects** concurrently.
- Implemented a robust **Task Management** system to assign, track, and update tasks, boosting team productivity.
- Built a full-featured **Human Resource Management System (HRMS)** for staff attendance, leave, and work hour tracking.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, MongoDB
Frameworks: React, Angular, Node.js, Express.js, Next.js, NestJS
Developer Tools: Git, AWS, Firebase
Libraries & Integrations: Socket.IO, WebRTC, Just Dial, IVR, Razorpay, PayU, Twilio, Cloudinary
Concepts & Principles: Clean Architecture, SOLID Principles, Data Structures
Also Used: NGRX, Three.js, MySQL, Clerk Auth

Education

Manipal University
Bachelor of Computer Applications (BCA) *2024 – Ongoing*
